Big Life Experiences

MAKING A DIFFERENCE BY
SUPPORTING CONSERVATION

Angama Amboseli guests are offered a series of behind-the-scenes experiences with our key conservation partner, Big Life Foundation, which manages and protects Kimana Sanctuary and the wider Amboseli-Tsavo-Kilimanjaro ecosystem.

Time spent with the Big Life Foundation team affords our guests a deeper understanding of the crucial work they execute daily to prevent poaching, promote human-wildlife coexistence and support local communities through their impressive conservation efforts.

TRACKER DOG DEMONSTRATION - 1 HOUR

Experience a tracking demonstration, one of Big Life’s chief wildlife protection strategies, with tracker dogs in a conservancy in the Kimana wildlife corridor. Meet the canines who keep the Sanctuary and the Greater Amboseli ecosystem safe, and learn about the tracking and training that go into their patrols.

USD \$250 for up to 5 people

Minimum 24-hour notice

WALK WITH A BIG LIFE RANGER IN KIMANA SANCTUARY - 1H30 MIN

Join a Big Life ranger for a tailored walking safari experience. Guests will hear firsthand stories from the frontline of conservation and about the conservancy and Big Life’s work, as well as the tracking techniques used to protect some of the world’s most treasured wildlife, including some of Africa’s last Super Tuskers – elephants whose tusks brush the ground and can weigh more than 100lbs each.

USD \$200 for up to 4 people

Minimum 24-hour notice (subject to change in case of emergency)

VISIT TO BIG LIFE HQ - 1H30 MIN

Meet the team responsible for monitoring and protecting over 1.6 million acres of wilderness in the Amboseli-Tsavo-Kilimanjaro ecosystem at their headquarters near Amboseli National Park.

Enjoy a 30-minute introductory presentation over tea and coffee that covers an overview of the Amboseli ecosystem – one of the most interesting conservation landscapes in the world, with an array of exciting successes. Learn how these have been achieved, and how conservation is changing in tandem with human society.

Following the presentation, guests will visit the Courtyard of Confiscated Items to delve deeper into local weapons (bows, arrows), snares and animal skulls before heading to the Control Room. Here, a Senior Ranger will lead a walk through the three map layers (ranger movements, animal tracking, and incident reports).

Finally, settling into the shade, two programme managers will speak to the guests for 10-15 minutes on their initiatives (community and conservation programmes), followed by a question-and-answer session.

USD \$500 for up to 4 people

A TALK WITH BIG LIFE AT ANGAMA AMBOSELI

Meet with a senior management member of Big Life Foundation over a hosted lunch at Angama Amboseli. Enjoy an in-depth conversation on the vital work and innovative conservation strategies Big Life has undertaken to protect and sustain the Greater Amboseli ecosystem's wildlife and wildlands, including any questions guests might have about conservation or how Big Life promotes human-wildlife coexistence.

USD \$1,250 for up to 6 people

Minimum 24-hour notice (subject to change in case of emergency)
