

# ANGAMA

## AMBOSELI

Angama Amboseli is situated in the 5,700-acre Kimana Sanctuary, the jewel of the greater Amboseli ecosystem, set against the majestic backdrop of Mount Kilimanjaro.

In the Sanctuary, guests are surrounded by diverse wildlife, while Amboseli National Park is a 45-minute drive from gate to gate.

The lodge has been set out in a way that each of the 10 guest suites are just a few minutes' walk away from the Guest Area, Swimming Pool and the Studios. All suites are identical with excellent views of Kili, including the two sets of family suites with fully enclosed walkways between the suites.

Kimana Airstrip is a just 10-minute drive away from the lodge, while the road entrance to the Sanctuary is a short 15 minutes.
